

LUZOL HP CX 450

Extreme pressure and high temperatures grease with a high-viscosity mineral oil base

Description

Does not run at high temperatures, high mechanical stability, no oil separation. Ensures long life for parts and the machine following a decrease in wear.

Applications

For lubricating bearings of rollers of wood pelleting presses. Approved by Promill.

Technical data

Operating temperature range: -20°C to +160°C

NLGI Grade: 1

Load: 620 kg
