

## LCH 600

### High speed and high temperature grease

#### Description

High tech grease with outstanding chemical and physical properties to allow its use over a long period of time at very high temperature. This complex lithium soap grease is specially designed to also work under severe loads even in humid environment. Superior additivation: against oxidation, anti-wear, and giving resistance to heavy loads and stokes are giving this grease the properties to match difficult lubrication requirements.

#### Applications

For all type of bearing, submitted to severe condition of use, speed and temperature. Lubrication of paper machine bearings, textile machines, electric motors, hot gas fans, drying ovens ...

#### Technical data

Operating temperature range: -20°C to +160°C (180°C peaks)

NLGI Grade: 2

NDN Factor: 800 000
