

KLW 10

Water-based cleaner with great degreasing power

Description

Ready-to-use water-based industrial cleaner (mechanical parts, chains, bearings, filters, floors, machines, moulds and dies etc...). Formulated with easily biodegradable surfactants. Contains corrosion inhibitors. Compatible with aluminum and other metals due to its pH value.

Applications

Takes off and removes industrial dirt such as grease, cutting oils, oily or waxy temporary protections. Its low surface tension facilitates deep cleaning of floors and machines. Low foaming, it can be used in scrubber machines and high pressure cleaners

Technical data

Operating temperatures: 0 to 100°C

PH : 8,60
