

KL 111

Cold degreaser safety

Description

Guaranteed chlorinated solvent-free, HCFC-free and ethylene-glycol free. Inert to most plastics (polyethylene, polypropylene, polyester, Teflon, etc.). Very good dielectric rigidity.

Applications

All mechanical parts (chains, bearings, pinions, filters, etc.). Removal of grease, oil, sludge and other chemical products. Can be used cold, with a brush, in a tank, with a cloth and specifically in a parts washers, ideally with an electric pump.

Technical data

Flash point: 62°C
